PROFESSIONAL EXPERIENCE

Elda Health ⬈

February 2024 – present | Bengaluru

- **Treeva - Provider UI - Next.js | Material UI |Tailwind CSS**
  Contributed to technical and design decisions for a dynamic web application, enabling efficient scheduling, appointment management, and client interactions for healthcare providers and yoga instructors.

- **Elda Health Nutra Store - React.js | Tailwind CSS | Figma**
  Collaborated with the Product Designer, utilizing Figma to build an assessment experience for Elda Health's Nutra products to recommend the product based on the web-based symptoms questionnaire.

- **Elda Health - Admin UI - React.js | API | Material UI**
  Partnered effectively with backend developers to seamlessly integrate the API with the UI, enabling the smooth transmission of WhatsApp messages to customers via Gupshup templates.

- **Elda Health - Webflow | Figma**
  Led the development of the Elda Warrior Program experience on the website by closely collaborating with the Product Manager. This initiative effectively communicates the company's holistic approach to women's health.

- Implemented **Scrum methodologies**, including daily stand-ups and story-point estimation techniques like poker sizing, to enhance task estimation and team coordination.

- Adopted **JIRA** for task tracking and estimation, and utilized Confluence for comprehensive solution documentation and design collaboration

PROJECTS DEVELOPED

Room Nest - Room Booking App - React Native ⬈
- Built a room booking app mobile application, designed to facilitate the process of booking rooms. Users can explore a wide range of rooms, and access detailed information.

The Vastra - Clothing Website- React.js | React-router ⬈
- Created and managed a user-friendly clothing platform with separate sections for men, women, and children. Added a description section and "Add to Cart" feature for easy shopping.

Real Time Crypto Tracker- React.js | API ⬈
- Designed and developed a real-time cryptocurrency using **React** and integrating **API** for fetching data to provide users with live updates on cryptocurrency prices.

Gym-membership website- React.js | CSS ⬈
- Developed a gym membership web application with dynamic user interfaces that reflect the latest trends in fitness and personalized training programs.

E-commerce Shopping Website - HTML | CSS | JavaScript ⬈
- Crafted and developed a multi-page, user-friendly interface allowing seamless product browsing, item addition to the cart, and efficient product filtering by gender categories (men, women, and kids).

Nike Landing Page - React.js | Tailwind CSS ⬈
- Implemented a responsive Nike landing page, ensuring an optimal user experience across various devices and screen sizes, while maintaining a clean and modern design.
